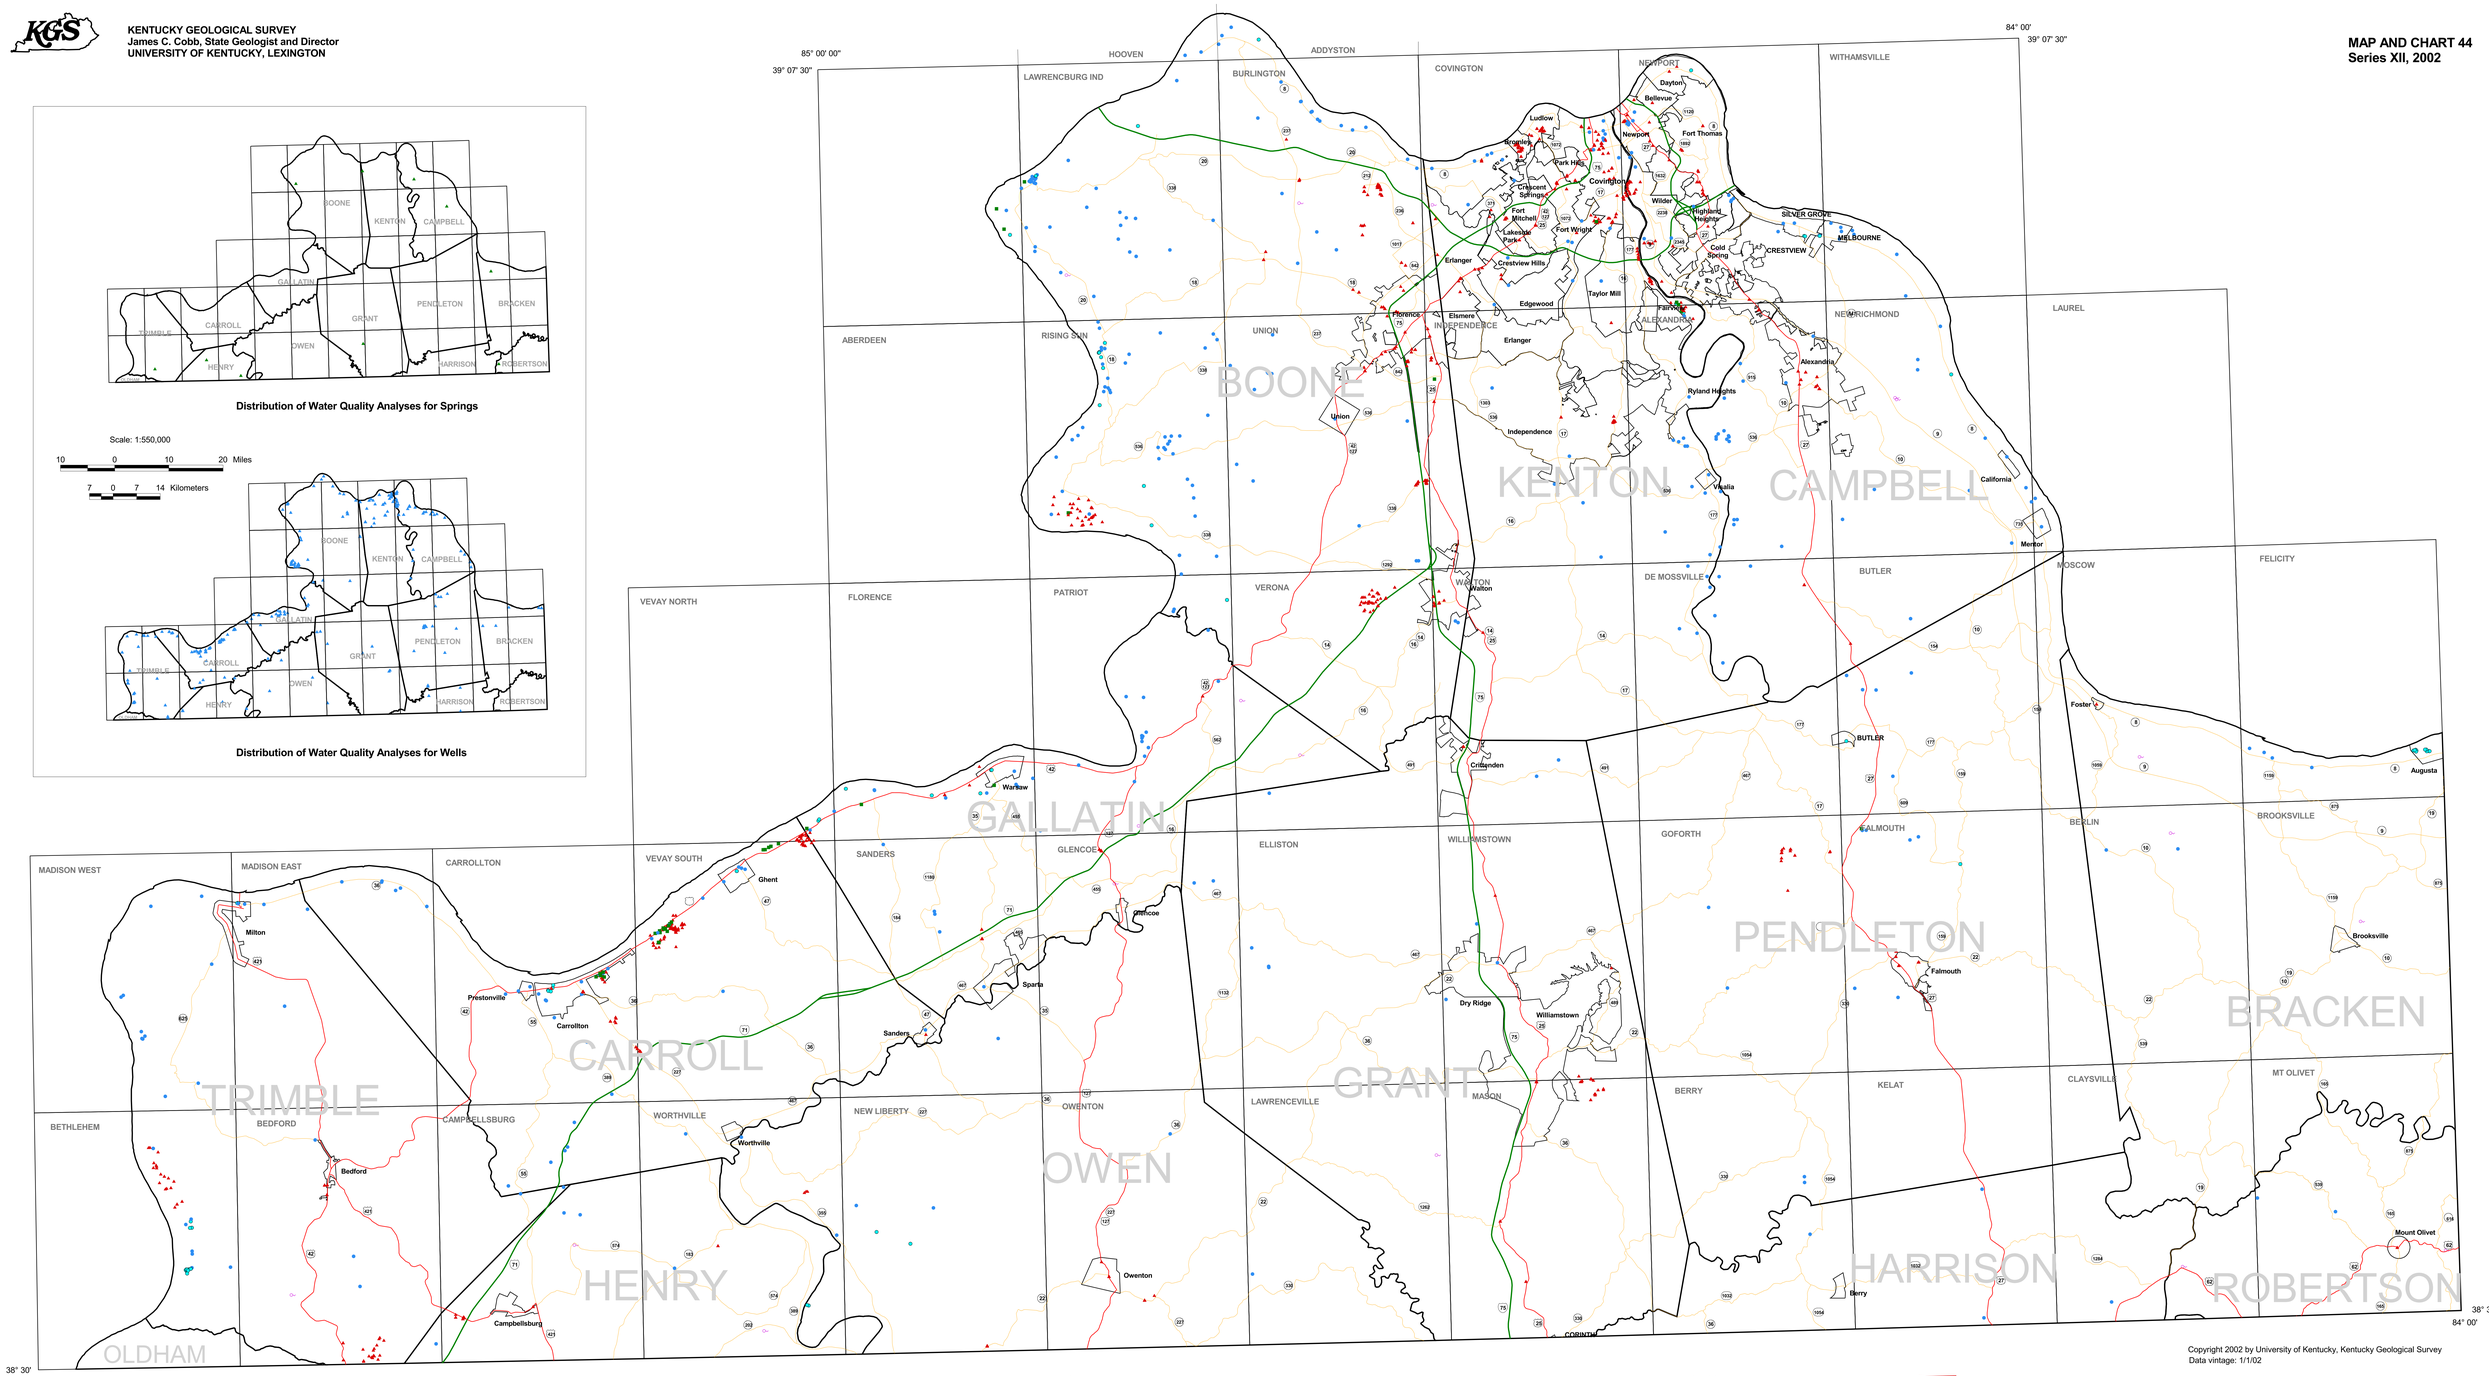
Distribution of Water Quality Analyses for Springs

Scale: 1:550,000

10 0 10 20 Miles

7 0 7 14 Kilometers

Distribution of Water Quality Analyses for Wells



Copyright 2002 by University of Kentucky, Kentucky Geological Survey
Data vintage: 1/1/02

Data for this map were compiled from the Kentucky Groundwater Data Repository. This map represents only information contained in the repository, and may not be representative of all wells or springs in the area. Water wells did not have to be registered with the State prior to 1985. This map was produced using the digital line graph (DLG) base map (1:100,000 scale, universal transverse Mercator, zone 16) available from the U.S. Geological Survey. Digital water-well, spring and dye-trace data, and karst groundwater basin maps are available from the repository at the Kentucky Geological Survey, 228 Mining and Mineral Resources Building, University of Kentucky, phone 859.257.5500. To view this map online, please visit the Survey's Web site at www.uky.edu/kgs.

LEGEND

Type of well
- Domestic (Private)
- Industrial
- Monitoring
- Public
- Spring

Road and boundaries
- Interstate / Parkway
- Road designation
- U.S. road
- State road

USGS 7.5-minute quadrangle
