

Hurst Falls Inner Bluegrass Region

The Curdsville Limestone Member of the Lexington Limestone is exposed at Hurst Falls in Cove Springs Park. The Tyrone Limestone is exposed in the pool at the base of the falls. This Franklin County park/nature preserve has 100 acres of wetlands, streams, springs, waterfalls, forested ravines and other natural and historic features. The park is in north Frankfort off US 127/Holmes Street, and provides trails, interpretive centers, and picnic facilities. Photo by Brandon Nuttall, Kentucky Geological Survey.
