

Historic Covered Bridge, Bluegrass Hills

The Mt. Zion Covered Bridge (also known as the Mooresville Covered Bridge), circa 1871, at 102 feet is the longest multi-span in Kentucky and is on the National Register of Historic Places. Located on Ky. 458, 2.2 miles north of junction with Ky. 55, the bridge spans the Little Beech Fork River in Washington County. It is closed to traffic. Photo by Dan Carey, Kentucky Geological Survey.
