DRAFT GEOLOGIC QUADRANGLE
MOREHEAD QUADRANGLE, KY.
Version 1.0
GQ-1022

DESCRIPTION OF MAP

Gray and white indicate the presence of Quaternary deposits, mainly glacial rocks and drift, and minor non-glacial deposits.

GEOLOGIC SUMMARY

The Morehead 7.5-minute quadrangle is located in Knox County, eastern Kentucky, near the Appalachian Basin. The quadrangle includes the towns of Morehead, Salyersville, and Blandford and the communities of the North Triplett Field and Higdon Field. It is one of the first in the Morehead series of 7.5-minute quadrangles."
