

BORING LOG

EC 22-10

Location Bird's Corner

Date 6/17/68

Project name St. Georges

Equipment used HSA

Elevation \_\_\_\_\_

Driller A. F.

Total depth 65

Geologist TEP, JW

Depth (feet)	Lithology	Color	Size of Particles	Water table (✓)	Fossils	Other features
0-5	Sticky	brn cl	soil & gravel (Fill)			
5-10	gravel at 7	(Pleis?)	e-gravelly red			
10-15	gravel at 11	less cl at 13'	more typical			orange Pleis.
15-20	Change from orange to brn	Pleis at 18'	(W.T.?)			Wet
20-25	typical	orange Pleis	cl			
25-30	Same	no gravel				
30-35	Same,	lighter orange				
35-40	Same					
40-45	harder at 41' but drilling cl?		No! lumps look like Pleis cl			41-42
	at 41?		brn thin to Pleis			sd at 44
45-50	mud of shales	Same				
50-55	wet	Same				
55-60	quite wet	muddy				
60-65	much grayer	grm probably	(Crotal)			Some lumps dark gray No Red Bk

Bird's Corner      6/17      EC 22-10

0-55 Pleis sdy some gravel some clay strings 41-45'  
 55-65 Cretaceous gray micaceous sdy s/d  
 NO Redbank seen, however thin or absent
