Notes:

- 1. Exploratory borings were drilled on 5-4-2006 using a 3 1/4-inch diameter hollow stem auger.
- 2. No free water was encountered at the time of drilling or when re-checked the following day, unless recorded on 1st page.
- 3. Boring locations were taped from existing features and elevations extrapolated from survey unless otherwise reported.
- .. These logs are subject to the limitations, conclusions, and recommendations in this report.
- 5. Results of tests conducted on samples recovered are reported on the logs.
