

Log # 187 W # ----- County Isle of Wight -* Date 10/13/66

Owner Union Bag-Camp Paper Corp., well #1A Use Industrial

Location On plant property, between railroad and Blackwater River, south
of U. S. Highway 58

Well Data

Driller: Layne Atlantic Company
Completed: February 3, 1959
Total Depth: 643 (constructed to 600)
Static W. L.: 125 (1959)
Casing: 20" x 0-260', 12" x 220-600'
Bedrock Not reached
Hole Size: 24" x 260', 36" x 260-600'
Yield: 2,204 gpm (24 hr. test)
H₂O Temp: 68° F
Aquifers: (developed) 380-390, 400-420,
460-470, 550-560, and 570-590
Elev: ± 12' (topo.)
Geology: Miocene, Eocene, & L. Cretaceous

Instrument Data

SP setting ----- Approx. - "/min.
Res. " ----- " - "/min.
Gamma " .01 (down) " 39 "/min.
T. C. " 16
Fluid: Fresh water in well
Running Time ----- Hrs. 45 Mins.
Depth of Log: Elec. ----- ' Gamma 224' **
Ground Electrode No Electric Log run-hole cased.

Remarks ** 20"-12" casing overlap begins at 224'; not possible to enter smaller casing at this depth without probe guide because drill hole is not plumb.

*Not recorded on Master sheet (confidential information-owner's request)
