SAMPLE EXAMINATION  
(washed)

0-200	No samples
300-310	Gneissic granite, minor mica schist
310-320	Same as above
320-330	Same as above
330-340	Same as above
340-350	Same as above
350-360	Same as above
360-370	Same as above
370-380	Same as above
380-390	Same as above
390-400	Same as above
400-410	Same as above
410-420	Same as above
420-430	Same as above
430-440	Same as above
440-450	Same as above
450-460	Same as above, high in quartz and feldspar
460-470	Same as above
470-480	Same as above
480-490	Same as above
490-500	Same as above
500-510	Same as above
510-520	

520-530	Same as above
530-540	Same as above
540-550	Same as above
550-560	Same as above
560-570	Same as above, average quartz and feldspar
570-580	Same as above
580-590	Same as above
590-600	Same as above
600-610	Same as above
610-620	Same as above
620-630	Same as above
630-640	Same as above
640-650	Same as above
650-660	Same as above
660-670	Predominantly chlorite schist with minor gneissic granite
670-680	50% chlorite schist, 50% Gneissic granite
680-690	90% gneissic granite, 10% chlorite schist
690-700	Dominantly quartz and feldspar grains, minor schist and gneissic granite
700-710	Gneissic granite
710-720	Same as above
