

OWNER: Claude D. Wright No. 2
DRILLER: Sydnor Pump & Well
COUNTY: Page (Stanley)

VDMR # 768
WWCR # 69
TOTAL DEPTH : 423 feet

GEOLOGIC LOG

0-15	No sample
15-30	Overburden - red silty clay intermixed with silt and quartz grains
30-167	Dolomite - dark gray, finely crystalline, hard, some iron stained quartz fragments (top of bedrock in this interval)
167-180	Dolomite - dark gray, fine to medium crystalline, hard, minor calcite seams
180-195	Dolomite - dark gray, hard, fine to medium crystalline, considerable calcite in seams
195-210	Dolomite - dark gray, fine to medium crystalline, some calcite in seams
210-225	As above
225-240	Dolomite - dark gray, finely crystalline, hard, minor calcite seams
240-255	Dolomite - dark gray, finely crystalline, hard, some calcite in seams
255-270	As above
270-285	Dolomite - dark to medium gray, finely crystalline, hard, some calcite seams
300	As above
330	As above
330-345	Dolomite - medium to dark gray, finely crystalline, minor calcite seams
345-360	Dolomite - medium to dark gray, fine silty coating on fragments
360-375	As above
375-390	Dolomite - medium gray, fine white silty coating on fragments, some calcite in seams
390-405	As above

OWNER: Claude D. Wright No. 2 (continued)

#768

405-420 Dolomite - medium gray, some calcite seams, traces of buff colored sandy dolomite

420-423 No sample
