OWNER: Union Presbyterian Church Well #2 DRILLER: Sydnor Pump & Well Co., Inc.

COUNTY: Augusta

VDMR #902 WWCR#279 TOTAL DEPTH: 198

## GEOLOGIC LOG

0-25 No sample.

## Elbrook Formation

Elbrook Format	tion
25	Dolomite - light-gray, finely crystalline, and light-gray to clear, rounded, small (1/2 mm), quartz sand in a light-brown, carbonate (dolomite) matrix.
50	Dolomite - medium-gray, finely crystalline.
60	As above.
70	Dolomite - medium- gray to light brownish-gray, finely crystalline.
90	As above - with minor dark gray chert.
105	Dolomite - predominantly light-gray, finely crystalline, and minor light-brown, finely crystalline with gray to clear, rounded, frosted quartz grains.
120	Dolomite - medium light-gray to tan, finely crystalline.
135	As above.
140	Dolomite — tannish-brown to medium-gray, finely crystalline, siliceous dolomite.
150	Dolomite — medium- to tannish-gray, finely crystalline, possibly some siliceous material.
165	As above.
180	As above.
198	As above.

## GEOLOGIC SUMMARY

	ROCK UNIT	TIME ROCK UNIT
